Douglas, thank you for the update.

Can we please schedule a call for Friday or Monday after the EPA call with NRC leadership. Early mornings or late afternoons MST are appreciated timing wise for our call.

Best,
Blake

Hi John: here is what we have by way of an update since we spoke with you and Blake on Monday, August 17th.

On Thursday this week, our senior leadership will be meeting with NRC leadership to discuss our respective regulatory roles for the Dewey Burdock ISR project and answer any questions, etc. on our Class III permit requirements.

For tribal consultation, we are planning to consult with Oglala Sioux tribal leadership in mid-September and have been working with their tribal staff in preparation for this meeting. Once this occurs, we should have a good idea of whether any further consultation is needed prior to final UIC permit issuance.

We continue to do everything we can in moving forward with final UIC permit issuance this month.

Douglas

Subject: [SPAM-Sender] Update

Douglas and Darcy,

It has been a couple weeks since we last spoke and we would like to request an update in regard to new developments from meeting with NRC regarding the MOU and efforts on consultation.

Can you let us know a good time to schedule a call. Mornings or later after noon are best for us.

Thanks,

John
